

Leading the Way

At YMCA Wanakita, campers become leaders. They leave more than just their campsite better than they found it; they leave with a deeper understanding of themselves, stronger connections with others, and a renewed appreciation for the world around them. Wanakita nurtures leadership that lasts a lifetime.

The Wanakita Charter

We who have been before challenge you, who are the present, to make new friends, renew old friendships, experience new skills, discover and appreciate nature and outdoor life, to participate fully in all activities that are offered to you, and to create memories that last a lifetime.

You are challenged to learn that YMCA Wanakita is not just the buildings, the land, and the lake, but the people. It is the people that become so much a part of us while we are here.

Finally, we challenge you to keep your sense of fun and adventure, that no matter what your age, to be healthy in spirit, mind and body, and to make YMCA Wanakita what it really is... *a place to have the time of your life.*
